REMARKS [REDACTED]

25X1X **REFERENCE COPY**

**DO NOT CIRCULATE**

SOURCE [REDACTED]

1. Garz (N 54/L 20) airfield was observed on 10 April 1951. From east to west the field is about 700 meters long, and the same distance from north to south. The eastern border of the field is about 200 meters west of the village of Garz and the western border is about 2.5 km east of the village of Kutzow. \*
2. Nine single-engine low-wing monoplanes, with radial engine, rigid landing gear, rounded wing tips and two open pilots' seats, were parked on the landing field. \*\* The planes, each occupied by only one man, made individual local flights between 8:45 a.m. and 3 p.m. About 150 men, 3 tank trucks, and 1 truck were seen on the landing field. There was no pedestrian or motor vehicle traffic at the field. [REDACTED] the latter occupied by two naval officers were seen moving toward the airfield. All the drivers wore air force uniforms. \*\*\*
